NY Fire Alarm Association
1 Teleport Drive, Suite 202
Staten Island, N.Y 10311
Attn: Karen DeGirolarmo.
Executive Director

Dear Friends,

On behalf of the Department of Pediatrics here at Staten Island University Hospital I would like to thank you all for your most generous visit on December 8, 2015. It was very nice to see you all again and as always I was touched not only by the quantity, but the quality of your gifts as well. It was heartwarming to see how all of you got so much joy from giving the gifts to our children. The kids really loved the gifts, and their parents were very appreciative as well.

It is very reassuring to know that there are still wonderful people in our community who truly care about hospitalized children. We are thankful that "New York Fire Alarm Association" never forgets our Pediatric Unit and always brings so many gifts for us.

Once again, thank you so very much for your generous and kind visit. On behalf of our Pediatric Unit I would like to wish all you wonderful people a very Merry Christmas and an even happier New Year. We very much look forward to seeing you all again next year.

Sincerely,

Vivian Alestra
Child Life Specialist
Department of Pediatrics
